

CERTIFICATE OF CONFORMITY

CERTCONF2011

This document certifies that the following product and specific batch has been manufactured to and complies with the company's standard Specification.

It further certifies that the batch has been tested by a diagnostic laboratory and complies with the minimum specification for this product.

PRODUCT CODE	RRSP68		
DESCRIPTION	Haematoxylin Harris (with Acetic Acid)		
BATCH NO	Allocated at time of production		
Manufacture Date	3 Year Shelf Life	Expiry Date	3 Year Shelf Life
SPECIFICATION	An alum type of haematoxylin similar to Delafield's haematoxylin, but which uses chemical ripening to produce oxidation of haematoxylin for immediate use. It is generally used in regressive staining methods, but may also be used progressively in cytology and as a counterstain in histology. Ripened with acetic acid for enhanced nuclear staining		
TESTING PROTOCOL <small>(WHERE APPLICABLE)</small>	Supplied against supplier's certificate of analysis/conformity		

We confirm that this batch has been tested in our Laboratory and has been found to stain to our minimum standards and that sample will be retained for the life of the product
